

# Roxanne Macmod

FINE ARTS

A Dubai based travel-artist. She has a passion for painting the colors of sunsets as inspired by places visited. Studied impressionism under a renowned Russian artist in Mexico and learned cityscape impressionism in the streets of Paris. She also did several artist residences around the globe to hone her art skills such as in New York, USA and in the Cote D'Azur, France.

Lately, she learned to embrace Duality. Of words and images. Of writing and painting. Mirrors and reflections. To create a sense of duality that pairs into oneness. Colors to canvas is her way of recreating what she felt through painting. Ink to paper is her way of tasting life twice through poetry.
